

Working Party on Food and Agricultural Chemistry, ČSCH, and
Department of Food Analysis and Nutrition, UCT Prague, in cooperation with
Food Research Institute Prague and Czech University of Life Sciences Prague

are pleased to invite you to

III. Symposium on New Trends in Food Production, Chemistry and Analysis

with a series of invited lectures on
**Nutritionally beneficial, safe and environmentally
friendly food**

date: May 19-21, 2024

Main program: May 20-21, at ČSVTS, Novotného lávka, Prague
Welcome party & Sensory: May 19, at UCT Prague-Dejvice

The symposium is intended especially for the people from food, agricultural and related fields including research, control and educational institutions as well as production plants and business. The program is focused on trends and news from the world of chemistry and analysis of food and food raw materials, nutrition, food and agricultural technologies, legislation and quality control. The working languages are Czech, Slovak and English.
